

Decontamination Declaration and Shipping Document

Due to legal requirements and for the sake of our employees we need to have a **completely filled and signed decontamination declaration**. Please, attach this declaration in a clearly visible position on the outside of the packaging and sent it by email to info@hematech.de in advance.

Devices will only be repaired and calibrated if a fully completed decontamination declaration is available. If this is not the case, work will be delayed. **A separate declaration must be made for each device.**

This declaration may only be completed and signed by the operator's authorized specialists.
